SUMMARY

Software Engineering Student with the passion of programming, UI/UX design, software development and machine learning. Dedicated to continuous learning and building innovative solutions

EDUCATION

Comsats University Islamabad, Vehari

BBachelors in Software Engineering (3.36 cgpa)
2020 - 2024

Punjab College, Mian Channu

Intermediate in ICS (Computer Science)
2019 - 2020

SKILLS

- C++
- Asp.net
- Python Scripting
- Web Automation using Python
- Web Development
- Web Designing
- Data Structures and Algorithms
- AI (Artificial Intelligence)
- Database Management
- Networking

CERTIFICATIONS

- Google IT Automation with Python Professional Certificate
- Introduction to Programming with Python.
- Advanced Python Scripting for Cybersecurity.
- Google Cybersecurity Professional Certificate
- Google UX Design Professional Certificate

PROFESSIONAL EXPERIENCE

Python Programming/Scripting:

- Experienced in Python Scripting and knowledge in advanced python3 libraries.
- Skilled in writing clean, effective, and optimized code using Python

Web Automation, Data Mining, Web Testing:

- Experienced in using Python tools like Selenium, Scrapy, BeautifulSoup, and other supportive tools for web automation and testing.

Building Prototypes (Design Models):

- 1+ year experience in building Figma prototypes with a focus on creating awesome UI/UX Design Model for Desktop, Mobile, and Web
- On Track of Google UX Design Professional Certificate Course (Coursera)

Artificial Intelligence (AI)/ Machine Learning:

- Applied Advanced algorithms and statistical analysis to solve real world problems and optimized decision making process using machine learning.

Cyber Security Course - Coursera (Online)

- Developed skills in analyzing and mitigating security risks, implementing secure practices, and protecting digital assets.
